

Connected business

Big Blue Internet

Big Blue Internet delivers budget-friendly high-speed business-critical Internet without the constraints of a Fair Usage Policy, bursting provisions or shaping. Big Blue Internet will grow with your business needs, offering Internet with extremely low contention and latency. We offer Big Blue Internet with bandwidth options from 5Mbps to 100Mbps, making it the ideal Internet solution for any small and medium business.

Benefits:

- **Business class, always on connectivity** improving business services, employee productivity and cost efficiency
- **Flexible according to your needs** with the choice of bandwidth to serve your business' needs at a fraction of the cost
- **Super-fast and reliable** enterprise-grade broadband service that matches your growing needs

Features:

- **A terrestrial open fibre network** spanning 10 major African economies and constantly growing
- **A variety of access methods** through Fibre, Copper, Wi-Max, Microwave and Satellite
- **Low contention ratios** with multiple speed offerings and unlimited throughput.
- **Major sub-sea cable connections** to all major international undersea cable systems.
- **No constraints** on your business data consumption
